

Datasheet 37-37kN combined release hook

Product description

The 31-37kN release hook meets the high SOLAS standards for off-load release hooks, as described in the MSC.81(70) and applicable LSA code and is dimensioned to suspend davit launched life rafts up to 40 persons and rescue craft with a davit load up to 3.500 kg.

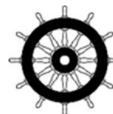

Specifications

The 31-37kN manual/automatic release hook is intended to be used on rescue boats and Liferrafts. Manufactured in seawater resistant stainless steel it is designed as an integrated manual and automatic release hook. The Red rope handle activates the automatic release, the Blue rope handle is for manual release. Safe Working Load of the hook is 3500kg

PRODUCT CODE	DWMS 15.0036
